GUARDIAN RSQ UK

The GUARDIAN RSQ UK is a lightweight protective garment tailored specifically to the British market for technical rescue operations and wildland firefighting. Featuring TEXTPORT's Multitex II outer fabric in HiVis yellow, it provides excellent visibility even under the most challenging conditions.

The GUARDIAN RSQ UK is available in a BICOLOUR HiVis yellow / red version. Alternatively, the jacket PLAIN (without red applications) can be worn in combination with the FIRE STRETCH UK trousers in gold.

The GUARDIAN RSQ UK is available in FIT A and Fit B.

WE ARE ONLY
SATISFIED WITH THE VERY BEST

HPX SYSTEM®

With the HPX System®, changing a defective zip is no longer expensive and complicated, but simple and affordable. Through the High Performance eXchange System, or HPX System, the lifespan of protective clothing is increased significantly. In addition, thanks to the striking design it is immediately visible whether or not the front part is fully closed. That makes it even safer.

EU-Patent 07121066.0

WICKING BARRIER®

The wicking barrier is permanently waterproof, breathable and wash-resistant. That means even after many uses and washes, the clothing's lining remains completely dry thanks to the GORE-TEX® barrier, as no more moisture can enter through the seams.

ERGO X PAD®

The TEXTPORT Ergopad® is a cushioned, ergonomically preformed knee pad that fits the knee in every place and avoids creating pressure marks. It is flame-resistant and does not become saturated with water, in contrast to the aramid non-woven padding, so that the trousers dry much more quickly after washing.

AVAILABLE IN FIT A & FIT B
